[Verse]

```
          A                 Em9       A
There's something in the way she moves
    Em        D        G         A
Or looks my way, or calls my name
      Em                 G           C         D
That seems to leave this troubled world behind
A                 Em9       A
If I'm feeling down and blue
Em           D        G         A
Or troubled by some foolish game
      Em                 G           C          A
She always seems to make me change my mind
```

[Chorus]

```
                    A         Em    D        A
And I feel fine anytime she's around me now
      F#m              Bm
She's around me now
        E
Almost all the time
            A             Em         D          A
And if I'm well you can tell that she's been with me now
                 F#m              Bm
And she's been with me now
          E
Quite a long, long time
    D A/E  A       G    D     A
And I feel fine
```

```
[Verse]

D               C                    G/B     C              D
Every now and then the things I lean on lose their meaning
       G/B     C      D
And I find myself careening
     C              G/B                   Em    A
Into places where I should not let me go
D               C                    G/B     C         D
she has the power to go where no one else can find me
             G/B     C     D
Yes, and to silently remind me
        G/B    C        D                     Bm            E
Of the happiness and good times that I know, you know
       Bm                     E
Well I said I just got to know that

   A                  Em9    A
It isn't what she's got to say
Em          D        G         A
Or how she thinks or where she's been
    Em              G         C         D
To me, the words are nice, the way they sound
   A                 Em9       A
I like to hear them best that way
Em            D      G         A
It doesn't much matter what they mean
      Em             G        C       A
she says them mostly just to calm me down

[Chorus]

             A       Em   D       A
And I feel fine anytime she's around me now
      F#m               Bm
She's around me now
       E
Almost all the time
             A              Em          D           A
And if I'm well you can tell that she's been with me now
             F#m              Bm
And she's been with me now
        Bm/E      Bm          Bm
Quite a long    Long       Time
Bm         E        A        G    D      A
Yes, and I feel fine
```
